

2018-2019

Pickens Academy Football EMP

-AED IS ALWAYS LOCATED IN COACHES OFFICE. IT WILL BE HANING UP ON THE CORK BOARD ALONG WITH PLAYER CONTACT AND KNOWN ALLERGERIES

-In the event of a **HEAT STROKE**, the position coach will stop practice by using a series of whistle blows and emergency protocol will go in place: Water boy (1) will dial 911, get player contact info from coaches office and have AED ready. Water boy (2/3/4/5) will fill ice bags to be placed under the players groin, arm pits, neck, and back. Coach Pate and Coach Minyard will begin initiative to move player into locker room (ice bath would be ideal) and keep a cooling fan over the player. Coach Acker will be at front gate waiting to direct the ambulance in. Coach Goodman will perform CPR if player has stopped breathing. Water boy (1) will also have AED ready. If players goes into seizures, DO NOT move the player or give them water. If the player begins to vomit, Coach Goodman, Pate, Acker or Minyard will turn player onto his/her side.

-In the event that a player becomes **UNRESPONSIVE** because of heart attack, reaction, etc., the position coach will stop practice by a series of whistle blows and emergency protocol will go in place: Water boy (1) will dial 911, get player contact and info from coaches' office and have AED ready. Water boy (2/3/4/5) will assist in contacting parents and getting the AED setup. Coach Pate and Coach Minyard will clear the area for the ambulance to arrive. Coach Acker will meet the ambulance out front and direct them to the player. Coach Goodman will begin CPR and use of AED if necessary. . If players goes into seizures, DO NOT move the player or give them water. If the player begins to vomit, Coach Goodman, Pate, Acker or Minyard will turn player onto his/her side.

-In the even that a player has a **Neck Injury**, the position coach will stop practice by a series of whistle blows and emergency protocol will go in place: DO NOT MOVE THE INJURED PLAYER OR REMOVE ANY GEAR INCLUDING SHOULD ER PADS. Water boy (1) will dial 911, get player contact info from coaches' office and have AED ready. Water boy (2/3/4/5) will assist in contacting parents and getting the AED setup. Coach Pate and Coach Minyard will clear the area for the ambulance to arrive. Coach Acker will meet the ambulance out front and direct them to the player. Coach Goodman will stabilize the head in the position found unless CPR is required. Refer to unresponsive and seizure protocol if needed.
